Our Vision & Mission

Transform the public sector to an **effective, efficient, precise, consistent and evidence-based policy making structure**

Foster **collaboration** amongst relevant stakeholders & offer the **knowledge base**, **research directions** and **recommendations** towards materialising this vision

Big Policy Canvas Concept

Pillar III

Roadmap
For Future Research Directions

Pillar IV

Community
Engagement

Pillar I

PA's Needs

Emerging Trends

Challenges &
Barriers

Pillar II

Methods, Tools,
Technologies &
Applications

Pave the way for the effective exploitation of **Big Data** and the promotion of **Open Innovation** to facilitate **data-driven and informed policy making**

Big Policy Canvas Concept

Big Policy Canvas concept is strongly based on:

- the idea of **community enlargement and strengthening**
- and also on the **innovation transfer** potential,

supported by a **framework** for the identification and assessment of methods, tools, technologies and applications for new types of data-driven policy design and implementation
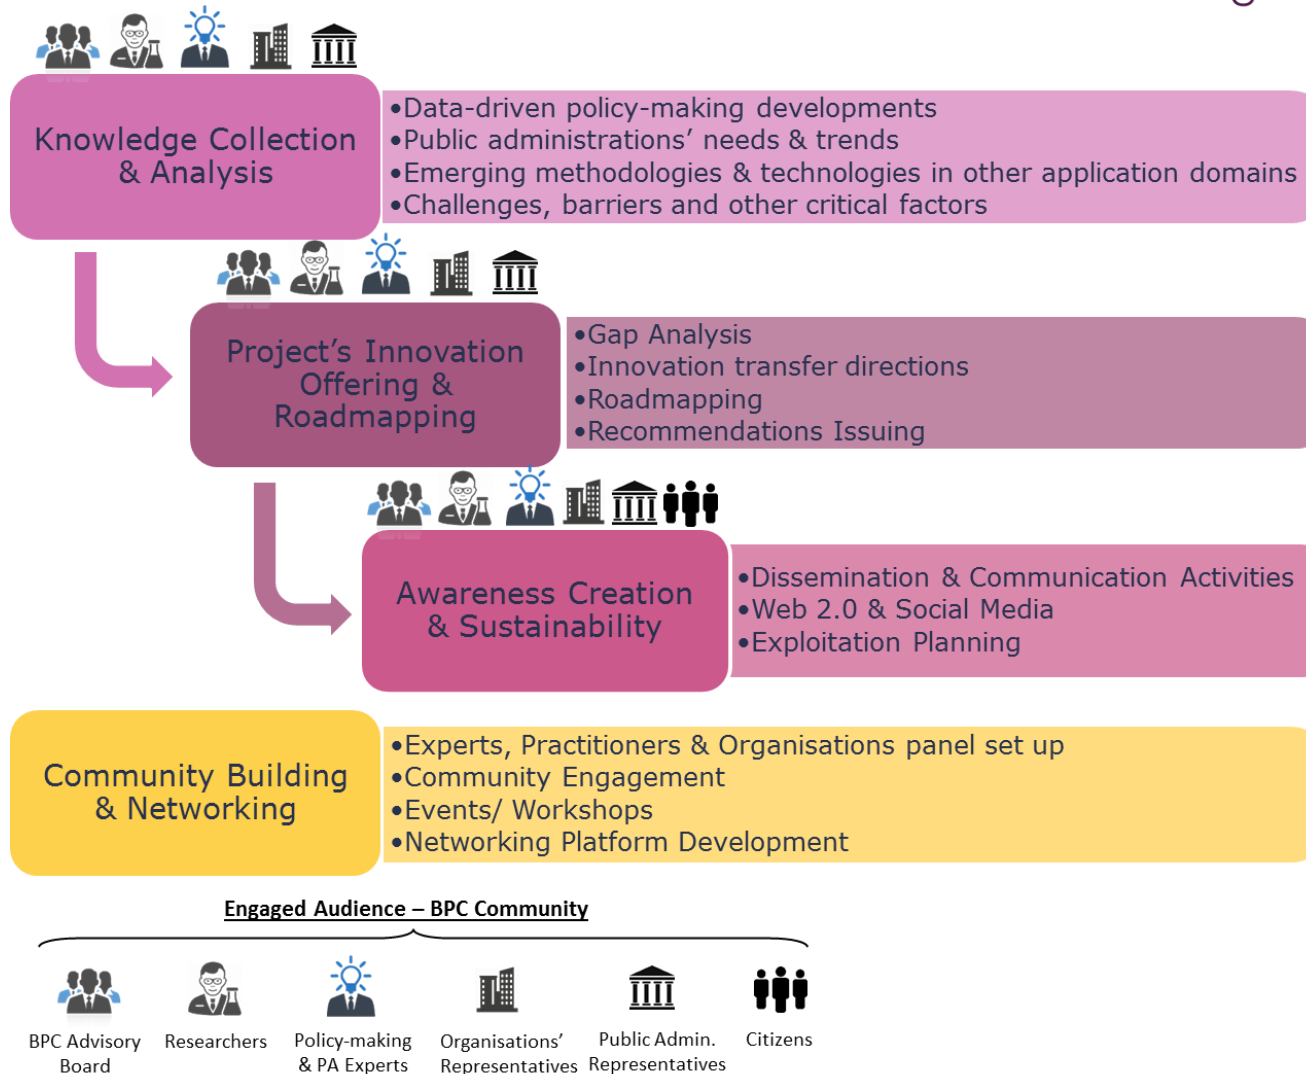

Big Policy Canvas Offering

A **complete methodological framework** for improving **public sector readiness** with regard to the **integration of Big Data** for the achievement of **informed, evidence-based policy development** in highly important application fields
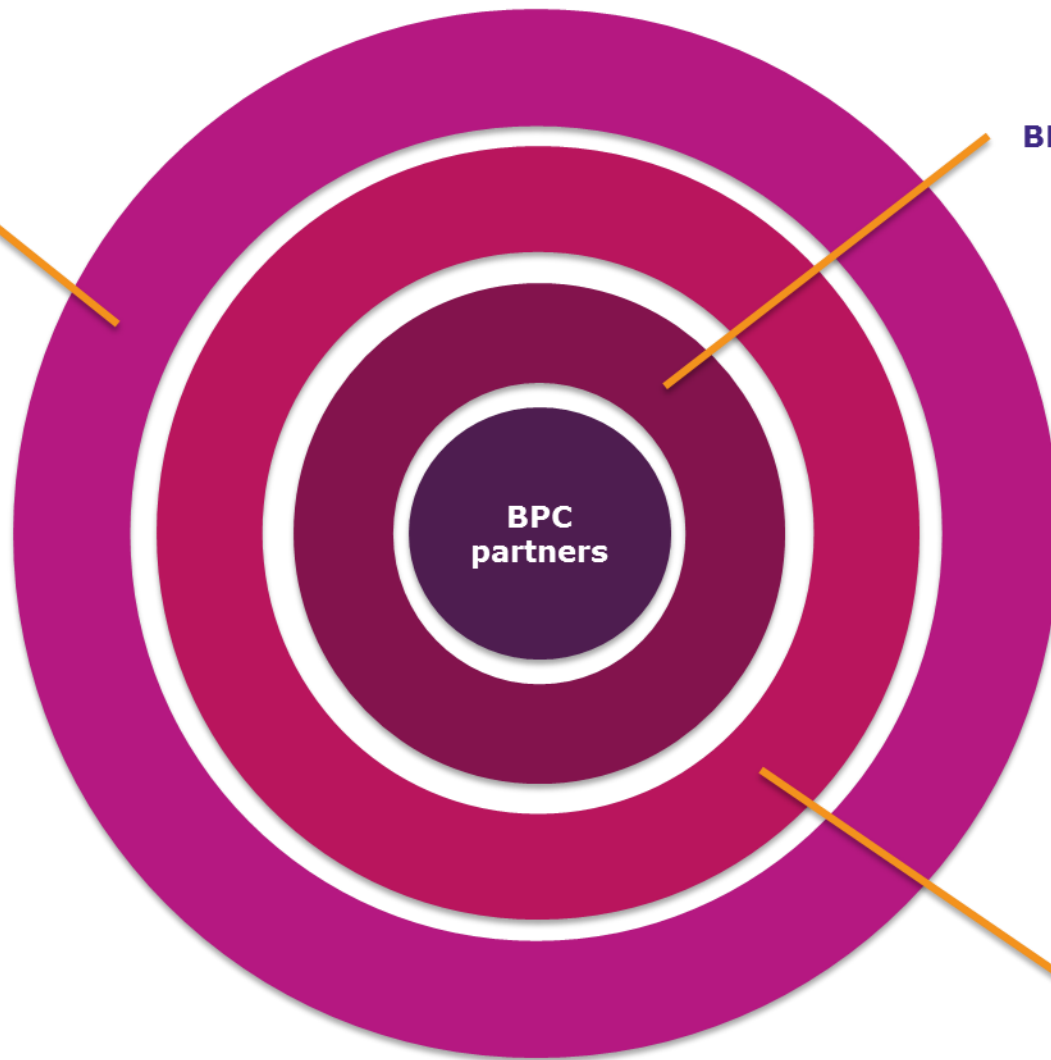

Our Approach

Knowledge Collection & Analysis
- Data-driven policy-making developments
- Public administrations' needs & trends
- Emerging methodologies & technologies in other application domains
- Challenges, barriers and other critical factors

Project's Innovation Offering & Roadmapping
- Gap Analysis
- Innovation transfer directions
- Roadmapping
- Recommendations Issuing

Awareness Creation & Sustainability
- Dissemination & Communication Activities
- Web 2.0 & Social Media
- Exploitation Planning

Community Building & Networking
- Experts, Practitioners & Organisations panel set up
- Community Engagement
- Events/ Workshops
- Networking Platform Development

Engaged Audience – BPC Community

BPC Advisory Board | Researchers | Policy-making & PA Experts | Organisations' Representatives | Public Admin. Representatives | Citizens

BPC Community

The BPC Expert Committee

Ms. Nuria de Lama
Vice-Secretary General of the
Big Data Value Association
(BDVA)

Dr. Giuseppe A. Veltri
Professor of research
methodology at University of
Trento

Dr. Vittorio Loreto
Professor of Physics of Complex Systems
at Sapienza University in Rome / Research
Leader at ISI Foundation in Turin.

Mr. Gianluca Misuraca
Senior Scientist at the EC Joint Research
Centre, Institute for Prospective
Technological Studies (JRC-IPTS)

Dr. Peter Parycek
Professor of E-Governance at the
Danube University Krems
